Title	_____	/10
Directions	_____	/20
Total	_____	/70

Parents, we are doing an in-class project by making our own digestive systems out of clay. All of the elements listed above are important in achieve the simple but helpful grade for this project. The students will have limited time to complete this activity, so they must use their time wisely.

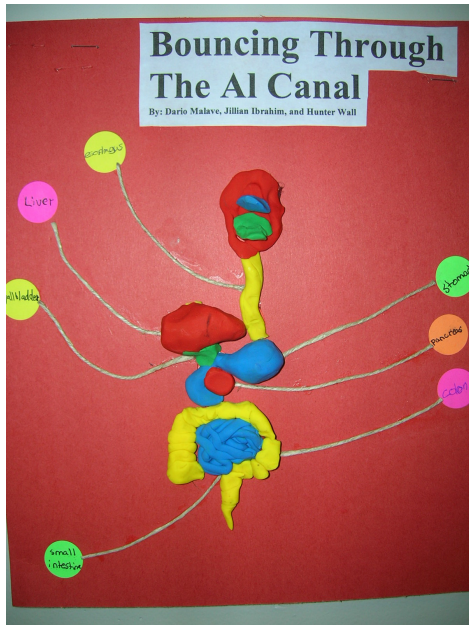

Needs: Clay that hardens after baking (A.C, Moore and Michael's Craft- Brands like Sculpey, Premo) **Please donate \$1 per student. I will pick up the clay from the store! Need by Oct. 3!**

If a couple of volunteers can bring paper plates!

Help: If some can offer to take some home and bake them. It will take a long time to bake 50+, plus you ladies are better with the oven! We will send home to bake over the weekend, Friday, Oct. 10!

Remember **70 points** can help a Health grade! We begin Thursday, October 6!
